EY Announces Enphase Energy President and CEO Paul Nahi is an EY Entrepreneur Of The Year® 2015 Award Finalist in Northern California

PETALUMA, Calif.--(BUSINESS WIRE)-- [Enphase Energy, Inc.](http://www.enphase.com) (NASDAQ:ENPH), today announced that Paul Nahi, president and CEO of Enphase Energy, is a finalist for the EY Entrepreneur Of The Year® 2015 Award in the Northern California Region. The awards program recognizes entrepreneurs who demonstrate excellence and extraordinary success in such areas as innovation, financial performance and personal commitment to their businesses and communities. Nahi was selected as a finalist by a panel of independent judges. Award winners will be announced at a special gala event on June 11 at the Fairmont, San Francisco.

"It is a great honor to be named a finalist among this esteemed group of fellow Northern California executives and recognized for Enphase's accomplishments in the emerging clean energy economy," said Paul Nahi, president and CEO of Enphase Energy. "Enphase continues to build on our original entrepreneurial vision of providing intelligent, connected solar energy systems to consumers and businesses worldwide."

Now in its 29th year, the program has expanded to recognize business leaders in more than 145 cities in more than 60 countries throughout the world.

Regional award winners are eligible for consideration for the EY Entrepreneur Of The Year National program. Award winners in several national categories, as well as the EY Entrepreneur Of The Year National Overall Award winner, will be announced at the annual awards gala in Palm Springs, California, on November 14, 2015. The awards are the culminating event of the EY Strategic Growth Forum®, the nation's most prestigious gathering of high-growth, market-leading companies.

About Enphase Energy, Inc.

Enphase Energy delivers energy management technology for the solar industry that increases energy production, simplifies design and installation, improves system uptime and reliability, reduces fire safety risk and provides a platform for intelligent energy management. Its semiconductor-based microinverter system converts energy at the individual solar module level and brings a system-based high-technology approach to solar energy generation, storage, control and management.
