

## Enphase Energy Announces Collaboration with NextEnergy in the Netherlands

FREMONT, Calif., Dec. 09, 2024 (GLOBE NEWSWIRE) -- [Enphase Energy, Inc.](#) (NASDAQ: ENPH), a global energy technology company and the world's leading supplier of microinverter-based solar and battery systems, announced today a collaboration with [NextEnergy](#), one of the most innovative energy providers in the Netherlands. This strategic relationship will enable NextEnergy customers with Enphase solar and battery systems to participate in the grid imbalance energy marketplace in the Netherlands, which can help maximize their return on investment (ROI) and reduce the system payback period.

Enphase [recently launched](#) its IQ® Battery 5P and IQ® Energy Management software in the Netherlands, which enables homeowners to manage dynamic energy tariffs and can help maximize energy savings. The collaboration now enables owners of Enphase IQ Batteries to participate in NextEnergy's dynamic tariff program, as well as join its virtual power plant (VPP) to help manage grid imbalances and unlock further compensation.

"We are thrilled to partner with Enphase to make the grid more resilient, reliable, and affordable for everyone," says Gijs Wubbe, founder and CEO at NextEnergy. "We are determined to give our customers a five-star customer experience in everything we do. Enphase offers world-class products and services, and by working together, we can give jointly offer the best possible end-to-end experience."

Enphase solar and battery systems, in collaboration with NextEnergy's advanced energy programs, can use AI optimization to automatically direct electricity toward the home or export it to the grid with the goal of helping homeowners maximize financial returns. According to Enphase research, homeowners across the Netherlands with Enphase's solar plus battery systems that are participating in dynamic energy contracts and the grid imbalance marketplace through VPPs with various utilities could [more than triple their lifetime earnings](#) over 25 years compared to solar-only systems.

NextEnergy offers dynamic residential energy contracts at significantly lower prices than traditional suppliers. Dedicated to making the energy transition accessible for everyone, NextEnergy enhances efficiency and maximizes homeowner savings through features like automatic charging during off-peak hours. It also prioritizes transparent pricing with no hidden fees, ensuring a clear and sustainable energy solution.

"Our innovative solar and battery systems paired with NextEnergy's revolutionary approach to providing energy offer a win for homeowners, the grid, and all ratepayers across the Netherlands," said Sabbas Daniel, senior vice president of sales at Enphase Energy. "Together, we can help accelerate the clean energy transition. We look forward to growing our relationship with NextEnergy and helping more homeowners maximize their Enphase solar and battery investments."
