## Enphase Energy CEO Paul Nahi Speaks at Fortune Brainstorm GREEN 2014

PETALUMA, Calif., May 20, 2014 (GLOBE NEWSWIRE) -- [Enphase Energy](#) (Nasdaq:ENPH) CEO Paul Nahi was selected to speak today at *Fortune Brainstorm GREEN 2014*, the premier conference for thought leaders in business, sustainability and green investing. Nahi will be a member of the "How do we double investment in cleantech?" panel. The event is being held May 19-21, 2014, in Laguna Niguel, California, and is dedicated to taking the corporate sustainability movement to the next level.

"Efforts to increase the flow of capital to clean technology companies need to start by identifying those policies that inhibit the fair competition of energy sources," said Paul Nahi. "Eliminating unequal financial support and accounting for the cost of carbon will create a level playing field in which the renewable energy industry can thrive."

### About Enphase Energy, Inc.

Enphase Energy delivers microinverter technology for the solar industry that increases energy production, simplifies design and installation, improves system uptime and reliability, reduces fire safety risk and provides a platform for intelligent energy management. Our semiconductor-based microinverter system converts energy at the individual solar module level and brings a systems-based, high technology approach to solar energy generation.
