

## Enphase Energy Reports Financial Results for the Fourth Quarter of 2023

FREMONT, Calif., Feb. 6, 2024 — [Enphase Energy, Inc.](#) (NASDAQ: ENPH), a global energy technology company and the world’s leading supplier of microinverter-based solar and battery systems, announced today financial results for the fourth quarter of 2023, which included the summary below from its President and CEO, Badri Kothandaraman.

We reported quarterly revenue of \$302.6 million in the fourth quarter of 2023, along with 50.3% for non-GAAP gross margin. We shipped 1,595,677 microinverters, or approximately 660.1 megawatts DC, and 80.7 megawatt hours of IQ<sup>®</sup> Batteries.

Financial highlights for the fourth quarter of 2023 are listed below:

- Quarterly revenue of \$302.6 million
- GAAP gross margin of 48.5%; non-GAAP gross margin of 50.3%, with net IRA benefit
- Non-GAAP gross margin of 41.8%, excluding net IRA benefit of 8.5%
- GAAP operating loss of \$10.2 million; non-GAAP operating income of \$65.6 million
- GAAP net income of \$20.9 million; non-GAAP net income of \$73.5 million
- GAAP diluted earnings per share of \$0.15; non-GAAP diluted earnings per share of \$0.54
- Free cash flow of \$15.4 million; ending cash, cash equivalents, and marketable securities of \$1.70 billion

Our revenue and earnings for the fourth quarter of 2023 are provided below, compared with the prior quarter:

(In thousands, except per share and percentage data)

	GAAP			Non-GAAP		
	Q4 2023	Q3 2023	Q4 2022	Q4 2023	Q3 2023	Q4 2022
Revenue	\$ 302,570	\$ 551,082	\$ 724,652	\$ 302,570	\$ 551,082	\$ 724,652
Gross margin	48.5 %	47.5 %	42.9 %	50.3 %	48.4 %	43.8 %
Operating expenses	\$ 156,893	\$ 144,024	\$ 153,741	\$ 86,551	\$ 99,027	\$ 87,718
Operating income (loss)	\$ (10,231)	\$ 117,989	\$ 156,960	\$ 65,587	\$ 167,593	\$ 229,389
Net income	\$ 20,919	\$ 113,953	\$ 153,753	\$ 73,474	\$ 141,849	\$ 212,389
Basic EPS	\$ 0.15	\$ 0.84	\$ 1.13	\$ 0.54	\$ 1.04	\$ 1.56
Diluted EPS	\$ 0.15	\$ 0.80	\$ 1.06	\$ 0.54	\$ 1.02	\$ 1.51

Our revenue and earnings for the fiscal year 2023 are provided below, compared with the prior year:

(In thousands, except per share and percentage data)

	GAAP		Non-GAAP	
	FY 2023	FY 2022	FY 2023	FY 2022
Revenue	\$2,290,786	\$2,330,853	\$2,290,786	\$2,330,853
Gross margin	46.2 %	41.8 %	47.1 %	42.6 %
Operating expenses	\$ 612,647	\$ 526,334	\$ 382,115	\$ 303,724
Operating income	\$ 445,741	\$ 448,261	\$ 697,210	\$ 690,292
Net income	\$ 438,936	\$ 397,362	\$ 613,241	\$ 647,424
Basic EPS	\$ 3.22	\$ 2.94	\$ 4.50	\$ 4.78
Diluted EPS	\$ 3.08	\$ 2.77	\$ 4.41	\$ 4.62

Total revenue for the fourth quarter of 2023 was \$302.6 million, compared to \$551.1 million in the third quarter of 2023. Our revenue in the United States for the fourth quarter of 2023 decreased approximately 35%, compared to the third quarter of 2023. Our revenue in Europe decreased approximately 70%, compared to the third quarter of 2023. The declines were primarily the result of reduced shipments to manage high inventory at our distribution partners along with a further softening in demand.

Our non-GAAP gross margin was 50.3% in the fourth quarter of 2023, compared to 48.4% in the third quarter of 2023, driven by increased net IRA benefit. Our non-GAAP gross margin, excluding net IRA benefit, was 41.8% in the fourth quarter of 2023, compared to 45.8% in the third quarter of 2023, driven by product mix. Our non-GAAP operating expenses were \$86.6 million in the fourth quarter of 2023, compared to \$99.0 million in the third quarter of 2023. Our non-GAAP operating income was \$65.6 million in the fourth quarter of 2023, compared to \$167.6 million in the third quarter of 2023.

We exited the fourth quarter of 2023 with \$1.70 billion in cash, cash equivalents, and marketable securities and generated \$35.5 million in cash flow from operations in the fourth quarter of 2023. Our capital expenditures were \$20.1 million in the fourth quarter of 2023, compared to \$23.8 million in the third quarter of 2023. Capital expenditure requirements decreased due to a reduction in our U.S. manufacturing spending.

In July 2023, our Board of Directors approved a share repurchase program with authorization to purchase up to \$1.0 billion of shares of our common stock. In the fourth quarter of 2023, we repurchased 1,183,246 shares of our common stock at an average price of \$84.51 per share for a total of approximately \$100.0 million.

We started shipping IQ8P™ Microinverters with peak output AC power of 480 W for the small-commercial market in North America, and grid-tied residential applications in South Africa, Mexico, Brazil, and India. We introduced IQ8™ Microinverters into more countries in Europe – Austria, Italy and Belgium. Our newest product, the IQ8X™ microinverter with peak output AC power of 384 W for panels with high DC voltage, is shipping to customers in the United States. We now ship IQ8 Microinverters into 21 countries worldwide.

We shipped 80.7 megawatt hours of IQ Batteries in the fourth quarter of 2023. We now ship our third generation of IQ Batteries, the IQ® Battery 5P, to the United States, Puerto Rico, Australia, and the United Kingdom. We launched this battery in Italy during the fourth quarter of 2023. More than 4,700 installers worldwide are certified to install our IQ Batteries.

We continued to release new features in Solargraf<sup>SM</sup>, our cloud-based design and proposal software platform during the fourth quarter of 2023. We began offering electrical design and single line diagram features while continuing to offer NEM 3.0 functionality for solar and battery systems in California. The software platform is currently available to installers in the United States, Germany, Austria, and Brazil.

We shipped approximately 913,000 microinverters manufactured in the United States to customers in the fourth quarter of 2023. As part of our plan to streamline manufacturing, we are ceasing operations at our contract manufacturing locations in Romania and Wisconsin. We will focus on manufacturing microinverters in the United States with our two existing contract manufacturing partners in South Carolina and Texas. Once these two U.S. sites have fully ramped production, we expect to have a global capacity of approximately 7.25 million microinverter units per quarter, of which 5 million units of capacity will be in the United States.

## **BUSINESS HIGHLIGHTS**

On Jan. 29, 2024, Enphase Energy announced that it started shipping IQ8HC™ and IQ8X Microinverters with peak output AC power of 384 W designed to seamlessly pair with a full range of solar modules up to 540 W DC.

On Jan. 23, 2024, Enphase Energy announced that it started shipping IQ8 Microinverters in Belgium, with peak output AC power of 384 W, to support newer, high-powered solar modules.

On Dec. 13, 2023, Enphase Energy announced that it is expanding its support for virtual power plants (VPPs) through grid services programs across the United States powered by the IQ Battery 5P.

On Dec. 5, 2023, Enphase Energy announced the launch of the IQ Battery 5P and IQ8 Microinverters, for customers in Italy.

On Nov. 30, 2023, Enphase Energy announced that it started shipping IQ8P Microinverters, with a peak output AC power of 480 W, in Mexico to support newer, high-powered solar modules.

On Nov. 16, 2023, Enphase Energy announced the launch of its new IQ8 Commercial Microinverters, featuring the IQ8P-3P™ Microinverter which enables a peak output AC power of 480 W, for the small commercial solar market in North America.

On Nov. 13, 2023, Enphase Energy announced that it started shipping IQ8P Microinverters, with peak output AC power of 480 W, in Brazil to support newer, high-powered solar modules.

On Nov. 2, 2023, Enphase Energy announce that it started shipping IQ8 Microinverters, with peak output AC power of 384 W, in Austria to support newer, high-powered solar modules.

On Oct. 30, 2023, Enphase Energy announced the launch of IQ8 Microinverters to support high-powered modules and the IQ Energy Router™ family of devices in Switzerland.

## **FIRST QUARTER 2024 FINANCIAL OUTLOOK**

For the first quarter of 2024, Enphase Energy estimates both GAAP and non-GAAP financial results as follows:

- Revenue to be within a range of \$260.0 million to \$300.0 million, which includes shipments of 70 to 90 megawatt hours of IQ Batteries
- GAAP gross margin to be within a range of 42.0% to 45.0%, with net IRA benefit
- Non-GAAP gross margin to be within a range of 44.0% to 47.0% with net IRA benefit and 40.0% to 43.0% excluding net IRA benefit. Non-GAAP gross margin excludes stock-based compensation expense and acquisition related amortization
- Net IRA benefit to be within a range of \$12.0 to \$14.0 million based on estimated shipments of 500,000 units of U.S. manufactured microinverters
- GAAP operating expenses to be within a range of \$144.0 million to \$148.0 million
- Non-GAAP operating expenses to be within a range of \$80.0 million to \$84.0 million, excluding \$64.0 million estimated for stock-based compensation expense, acquisition related expenses and amortization, and restructuring and asset impairment charges

For 2024, GAAP and non-GAAP annualized effective tax rate with IRA benefit, excluding discrete items, is expected to be within a range of 19.0% to 21.0%

## Use of non-GAAP Financial Measures

Enphase Energy has presented certain non-GAAP financial measures in this press release. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either exclude or include amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles in the United States (GAAP). Reconciliation of each non-GAAP financial measure to the most directly comparable GAAP financial measure can be found in the accompanying tables to this press release. Non-GAAP financial measures presented by Enphase Energy include non-GAAP gross profit, gross margin, operating expenses, income from operations, net income, net income per share (basic and diluted), net IRA benefit, and free cash flow.

These non-GAAP financial measures do not reflect a comprehensive system of accounting, differ from GAAP measures with the same captions and may differ from non-GAAP financial measures with the same or similar captions that are used by other companies. In addition, these non-GAAP measures have limitations in that they do not reflect all of the amounts associated with Enphase Energy's results of operations as determined in accordance with GAAP. As such, these non-GAAP measures should be considered as a supplement to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. Enphase Energy uses these non-GAAP financial measures to analyze its operating performance and future prospects, develop internal budgets and financial goals, and to facilitate period-to-period comparisons. Enphase Energy believes that these non-GAAP financial measures reflect an additional way of viewing aspects of its operations that, when viewed with its GAAP results, provide a more complete understanding of factors and trends affecting its business.

As presented in the "Reconciliation of Non-GAAP Financial Measures" tables below, each of the non-GAAP financial measures excludes one or more of the following items for purposes of calculating non-GAAP financial measures to facilitate an evaluation of Enphase Energy's current operating performance and a comparison to its past operating performance:

*Stock-based compensation expense.* Enphase Energy excludes stock-based compensation expense from its non-GAAP measures primarily because they are non-cash in nature. Moreover, the impact of this expense is significantly affected by Enphase Energy's stock price at the time of an award over which management has limited to no control.

*Acquisition related expenses and amortization.* This item represents expenses incurred related to Enphase Energy's business acquisitions, which are non-recurring in nature, and amortization of acquired intangible assets, which is a non-cash expense. Acquisition related expenses and amortization of acquired intangible assets are not reflective of Enphase Energy's ongoing financial performance.

*Restructuring and asset impairment charges.* Enphase Energy excludes restructuring and asset impairment charges due to the nature of the expenses being unusual and arising outside the ordinary course of continuing operations. These costs primarily consist of fees paid for cash-based severance costs and asset write-downs of property and equipment and acquired intangible assets, and other contract termination costs resulting from restructuring initiatives.

*Non-cash interest expense.* This item consists primarily of amortization of debt issuance costs and accretion of debt discount because these expenses do not represent a cash outflow for Enphase Energy except in the period the financing was secured and such amortization expense is not reflective of Enphase Energy's ongoing financial performance.

*Non-GAAP income tax adjustment.* This item represents the amount adjusted to Enphase Energy’s GAAP tax provision or benefit to report the non-GAAP tax amount based on cash tax expense and reserves for periods prior to 2023. Effective January 1, 2023, Enphase Energy updated its methodology of computing the non-GAAP income tax adjustment from reporting cash tax expense and reserves to the projected non-GAAP annualized effective tax rate as Enphase Energy utilized most of its net operating loss and tax credit carryforwards in the year ended December 31, 2022 and became a significant cash taxpayer in the United States. Going forward, Enphase Energy will exclude the income tax effects of GAAP adjustments such as stock-based compensation, amortization of purchased intangibles, and other non-recurring items that are not reflective of Enphase Energy ongoing financial performance.

*Non-GAAP net income per share, diluted.* Enphase Energy excludes the dilutive effect of in-the-money portion of convertible senior notes as they are covered by convertible note hedge transactions that reduce potential dilution to our common stock upon conversion of the Notes due 2025, Notes due 2026 and Notes due 2028, and includes the dilutive effect of employee’s stock-based awards and the dilutive effect of warrants. Enphase Energy believes these adjustments provide useful supplemental information to the ongoing financial performance.

*Net IRA benefit.* This item represents the advanced manufacturing production tax credit (“AMPTC”) from the IRA for manufacturing microinverters in the United States, partially offset by the incremental manufacturing cost incurred in the United States relative to manufacturing in Mexico, India, and China. The AMPTC is accounted for by Enphase Energy as an income-based government grants that reduces cost of revenues in the consolidated statements of operations.

*Free cash flow.* This item represents net cash flows from operating activities less purchases of property and equipment.

### **Conference Call Information**

Enphase Energy will host a conference call for analysts and investors to discuss its fourth quarter 2023 results and first quarter 2024 business outlook today at 4:30 p.m. Eastern Time (1:30 p.m. Pacific Time). The call is open to the public by dialing (833) 634-5018. A live webcast of the conference call will also be accessible from the “Investor Relations” section of Enphase Energy’s website at [investor.enphase.com](http://investor.enphase.com). Following the webcast, an archived version will be available on the website for approximately one year. In addition, an audio replay of the conference call will be available by calling (877) 344-7529; replay access code 5859211, beginning approximately one hour after the call.

### **Forward-Looking Statements**

This press release contains forward-looking statements, including statements related to Enphase Energy’s expectations as to its first quarter of 2024 financial outlook, including revenue, shipments of IQ Batteries, gross margin before and with net IRA benefit, estimated shipments of U.S. manufactured microinverters, operating expenses, and annualized effective tax rate with IRA benefit; its expectations regarding the expected net IRA benefit; its expectations on the timing of the introduction of new products into new countries globally; the capabilities, advantages, features, and performance of its technology and products; and the anticipated demand for and availability of its products and services. These forward-looking statements are based on Enphase Energy’s current expectations and inherently involve significant risks and uncertainties. Enphase Energy’s actual results and the timing of events could differ materially from those anticipated in such forward-looking statements as a result of certain risks and uncertainties including those risks described in more detail in its most recently filed Annual Report on Form 10-K and other documents on file with the SEC from time to time and available on the SEC’s website at [www.sec.gov](http://www.sec.gov). Enphase Energy undertakes no duty or obligation to update any forward-looking statements contained in this release as a result of new information, future events or changes in its expectations, except as required by law.

A copy of this press release can be found on the investor relations page of Enphase Energy’s website at [investor.enphase.com](http://investor.enphase.com).

## **About Enphase Energy, Inc.**

Enphase Energy, a global energy technology company based in Fremont, CA, is the world's leading supplier of microinverter-based solar and battery systems that enable people to harness the sun to make, use, save, and sell their own power—and control it all with a smart mobile app. The company revolutionized the solar industry with its microinverter-based technology and builds all-in-one solar, battery, and software solutions. Enphase has shipped more than 73 million microinverters, and approximately 4.0 million Enphase-based systems have been deployed in more than 150 countries.
